## TT Rockstars

*"I enjoy playing and getting top higher so I get money to buy new clothes. It makes me answer lots of different times tables and I am now better at my 4's and trying with my 9's"*

*"I like the fact that you can compete against other people in your class. I have got better at my tables and it has made me more confident because before TT Rockstars I would not have been sure about some answers but now I just know that they are correct"*

*"It helps me with learning maths in a fun way"*

*"I think it is helping me with my tables because I am not very good at the 8's and now it keeps testing me on my 8's! Now I know  $8 \times 6 = 48$ ! I enjoy earning coins for clothes etc. and that makes me want to go on it"*

*"I like it because I like going up a level and it does divides too"*

*"It is fun as I get to learn my times tables quicker and I get to buy things for my avatar. When I do well in one times table I am then moved on to another times table. I get the chance to answer lots of questions"*

*"I like that when you are good enough at a particular times table, you get another one. I can now use my tables more confidently in maths and I used to struggle doing that"*

*"It helps you with your maths and you move on to different levels"*

*"I like TT Rockstars because it helps me to learn my tables and you can create your character"*

*"Before I started playing TT Rockstars, I could do it at 5 seconds but now I'm below 2 seconds"*

*"I think it is fun because it makes you get faster. At the start, I got 20, but now I have 40. I like to play against my friends on Rock Slams"*

*"I like TT Rockstars because it makes me faster and I get higher scores in my times table tests"*

*"I like it because you can change the outfits of the characters"*

*"It's helped me get faster at my maths"*
